Pune , India 412101 • 8180968562 • atharvapandit84@gmail.com

## PROFESSIONAL SUMMARY

Seasoned Software Development and QA Engineer with 3.6 years of comprehensive experience in the tech industry. Proficient in designing, developing, and maintaining high-quality software applications while ensuring rigorous testing and quality assurance standards. Adept at collaborating with cross-functional teams to deliver robust, scalable, and efficient solutions. Demonstrated expertise in test automation, defect management, and end-to-end product validation. Committed to continuous improvement and the implementation of best practices in both development and QA processes.

## CORE COMPETENCIES

- Quality Assurance
- JIRA
- Defect Life Cycle
- Selenium Web-driver
- Test case implementation
- Teamwork and Collaboration
- Application Debugging
- React.Js
- Javascript
- PostgreSQL
- SQL
- RESTful APIs

## WORK HISTORY

### Software Engineer in Test

**Weikfield Foods Pvt.Ltd** - Pune, India

01/2024 - Current

- React developer with experience in building high-performance single-page applications (SPAs).
- Specialized in leveraging the robustness of libraries like Zustand, Axios, and Redux to craft complex, scalable web pages tailored for sales professionals, distributors, and area sales managers.
- Improved software quality by developing and implementing comprehensive test plans and strategies using selenium web driver.
- Assessed software bugs and compiled findings along with suggested resolutions for development team members.
- Developed comprehensive portals that streamline order management, documentation, and sales activities, enhancing operational efficiency and driving business growth.
- Mitigated risks associated with software releases by conducting thorough end-to-end system testing.
- Drove informed decision-making through data-driven insights from test results and performance metrics.
- Enhanced product performance with thorough evaluation of functional, regression, and integration tests.
- Followed proper defect life cycle whilst product in development and performed tweaks accordingly.

### QA Manual Tester

**Vinfro IT Solutions** - Pune

01/2023 - 12/2023

- Promoted collaboration between QA and development teams by actively participating in daily stand-ups, sprint planning meetings, and retrospectives.
- Collaborated with developers to swiftly identify, reproduce, and resolve critical bugs, ensuring timely delivery of high-quality products.
- Kept up-to-date with industry best practices and emerging trends in manual testing methodologies to ensure the delivery of top-notch software products.
- Established trust among stakeholders by consistently delivering accurate status reports on defect tracking, root cause analysis findings, and overall progress towards quality objectives.
- Championed a culture of quality within the organization by sharing insights, lessons learned, and recommendations for continuous improvement in testing processes.
- Verified data integrity through meticulous database testing, safeguarding against potential errors or inconsistencies.
- Assisted project managers in assessing risks and developing mitigation strategies for delivering high-quality software on schedule.
- Validated functional requirements with comprehensive test plans, resulting in improved application performance and stability.

## **QA Manual Tester**

**Globalstep Technologies - Pune**

05/2021 - 12/2022

- Conducted comprehensive regression testing following bug resolution.
- Established and implemented testing processes for new and existing products to meet client requirements.
- Worked closely with internal teams, including developers and product managers, to determine system requirements.
- Oversee the debugging process results  
Investigated the causes of non-conforming software and train users on solution implementation.
- Performed Regression, white box, black , performance testing for enterprise based applications.
- Tracked quality assurance metrics such as defect densities and open defect counts.
- Kept abreast of new testing tools and strategies.
- Analyzed requirements, specifications, and technical design documents to deliver prompt and insightful feedback
- Developed detailed, comprehensive, and well-structured test plans and test cases.
- Estimate, prioritize, plan, and coordinate all testing activities.
- Identify, document, and thoroughly track bugs

## **EDUCATION**

**Bachelor's of Technology** : Computer Science

**Nutan Maharashtra College of Engineering - Pune**

09/2022

- Graduation with Distinction, [6,2022]
- [9.6] GPA/CGPA

**High School Diploma**

**New English School - Pune**

04/2017

**No Degree**
